Reg. 183	Storage of records and other documents

### My Time, Our Place

LO. 1	Children feel safe, secure, and supported
-------	-------------------------------------------

### Policy Statement

We will ensure the safety and well-being of staff, children and visitors, within the Centre and on excursions, through proper care and attention in the event of an incident, injury or trauma. The Centre will ensure that every incident is handled in the correct manner as outlined in the WHS Act 2011 and that incidents are investigated as part of the risk management process to identify causes and establish controls to minimise recurrence. Emergency contacts will be informed immediately where the incident, injury or trauma is deemed serious, and all serious incidents will be reported to the relevant authorities.

- Sylvania Heights BASC Policy D-35: Workplace Inspection

## Scope

This procedure encompasses all incidents, accidents, injuries and 'near misses' that occur within the workplace.

## Responsibilities

Management has the responsibility for:

- Undertaking investigations to ensure there are no further incidents immediately and to establish long term controls to minimize the possibility of recurrence
- Contacting the Workers Compensation Insurer and / or WorkCover NSW depending on the severity of the incident to the staff member
- For liaising with the staff member, insurer and treating practitioners to obtain the optimum return to work outcome if a Workers Compensation claim is made the manager or Return to work Coordinator

Staff have the responsibility to:

- Cooperate fully with the investigation process
- Follow the instructions within this procedure

## Procedure

- Whenever there is an incident, it will be reported to management.
- If there is an injury, the injured person will be provided with immediate First Aid and medical attention.

- The incident will be recorded in the Register of injuries. The incident can also be entered into the GELSafe system. If this occurs, the form will prompt the investigation using the standard risk management process. A separate risk assessment may be completed to evaluate the circumstances and develop a remedial action plan
- An investigation of the incident will be carried out to find out why it occurred and what if any corrective actions and control measures need to be taken and implemented.
- The risk assessment form will be used to investigate the incident and record corrective actions to avoid further incidents
- In some circumstances WorkCover will be notified (refer to Safework Australia Incident Notification factsheet- attachment 1) and if there is a chance the incident might become a Workers Compensation claim the Insurer will be notified
- If the incident has occurred to a contractor or member of the public, the same incident report form may be used
